

a world of digital colour

Plant List

Printing Presses

Xerox 7000AP

A CMYK digital press. Prints @ 2400dpi and lays less oil on the page providing a flatter, more litho-look finish. It prints at the same speed for all paper weights providing a faster turnaround.

Xerox 5000

A CMYK digital press. Prints @ 2400dpi and produces a superior finish for solids, tints and graduations.

Xerox Nuvera 120 EA

A mono digital-press, outstanding quality of text, fine lines & tints, fast cost effective with inline stitching & punching.

Standard maximum sheet size SRA3 (320mmx450mm)

Oversized maximum sheet size (320mmx460mm)

Large Format

Epson 9800

Wide Format 1067mm (42")

8-colour print process: CMYK plus lighter tone of Cyan & Magenta plus two additional tones of black that gives richly enhanced colour coverage and monotone printing up to photographic quality.

It prints from 360x360dpi up to a photographic quality of 2880x1440dpi.

Finishing Equipment

- Duplo DB-200 Perfect Binder
- Duplo Booklett maker with 10-Station Collector
- Morgana Auto-Creaser & Perforator
- Morgana Foldnak8 Saddle-Stitch Booklet Maker with Nagel Trimmer
- Semi-automatic wire stitcher
- Morgana EBA55 Guillotine A2
- Morgana Docu-Fold & Perforator
- James Burn Wir-O PB3000 Wirobinder
- Uni Bond Thermal hardback / casemount band book binding
- GMP Surelampro-500 gloss and matt laminator
- GMP Excelam Q1670RS gloss and matt wide format laminator
- Nagel Citoborma 280 2 & 4-hole Drill
- Zip 21 Business Card Cutter
- Round Cornering
- Eyeletting
- Euro-slot
- Morgana EBA 5140S Shredder (for sensitive/confidential waste)
- MiniPack-Torre 24044 Shrink Wrapper 420mmx290mm seal area

FULFILMENT

Collation & stapling of handouts
Insertion into envelopes or plastic bags
Apply stickers onto goods
Collate, add board back and shrink wrap
Mailings

We collate items; stuff into envelopes or plastic bags; stick stickers onto goods and much more.
